

**REMARKS**

The foregoing amendment is to remove references in the written description to claims by their claim numbers in the specification as filed. Of the referenced claims, i.e., 2, 3, and 4, because of a restriction requirement only the subject matter of claim 2 remains in the case. In the amended paragraphs above, the reference to claims 2 and 3 has been replaced by the subject matter of those claims as filed. The reference to claim 4 has been replaced by a general introductory clause.

That the application would need such an amendment upon allowance was pointed out at page 6 of the amendment filed on May 27, 2003.

Entry of the foregoing amendment is respectfully requested.

Respectfully submitted,

---
